## STEEL STRIKERS EXTEND OPERATIONS TO BETHLEHEM CO.

Bethlehem, Pa., Sept. 29.—The national steel strike spread to the Bethlehem Steel Company today. The strike order went into effect at 6 o'clock this morning.

Absolute quiet prevailed about the mills and it was impossible to say during the early hours how many men had obeyed the order to go out.

The police force has been increased to prevent disorder and orders were issued forbidding any gatherings by strikers.

### BOTH SIDES CLAIM PROGRESS

Pittsburgh, Pa., Sept. 29.—The second week of the nation-wide steel strike started today with both operators and strikers claiming the progress which will insure ultimate victory.

Operators confidently assert that the worst is over, that the strike had "shot its bolt," in the first week without winning and that from now on a steady increase can be expected in production and resumption of the industry generally. An air of optimism pervaded steel circles generally despite the throwing into effect of the strike order at the Schuylk plants at Bethlehem, Steelton and other eastern Pennsylvania points.

For the first time since the strike started, the Carnegie plants at Homestead declared today every department operating 100 per cent. The plants there continued to operate all week though handicapped by the shortage of common labor.

### OFFICIALS DENY "WALK-OUT"

Baltimore, Md., Sept. 29.—According to officials of the corporation and steel workers at Sparrows Point, not a man went out at the Bethlehem steel company's plant there in response to the strike order issued by the national strike committee Saturday and was set for 6 o'clock this morning.

### ATTORNEY KILLS SELF WITH PISTOL HE CARRIED ALL HIS LIFE

Leesburg, Ohio, September 29.—Henry A. Pavey, 75 years old, retired attorney, formerly of Hillsboro, Ohio, ended his life at the home of his brother, Fred, in this city, yesterday afternoon, by shooting himself in the mouth.

Yesterday afternoon Mr. Pavey requested his family physician, Dr. W. W. Glenn, Hillsboro, to visit him at Leesburg, this afternoon. Upon the doctor's arrival at Mr. Pavey's home, he seemed very nervous, it was said, and after several minutes' conversation, excused himself, and went into another room. At the sound of a shot, Dr. Glenn rushed to Mr. Pavey's room, where he found him dying on the floor.

Financial reverses are attributed as the cause of Mr. Pavey's ending his life. Although having inherited considerable money, financial losses, suffered several years ago, discouraged him to the extent that he devoted most of his later life to books, caring little for affairs of the world. The pistol which Mr. Pavey used was one which, it is said, he carried with him throughout his life and of which he frequently boasted that "it would keep him from ever becoming dependent, for as soon as it was evident that he must become dependent on friends he would not hesitate to use it."

Mr. Pavey was known widely

John H. Fitzpatrick, chairman of the national committee which organized the strike of the steel workers, was the spokesman for the striking employees at the investigation being conducted by the

senate labor committee. He is shown answering the committee's questions. Senator Phipps of Colorado and Senator William Kenyon of Iowa are on the extreme right of photo. Kenyon introduced

the resolution to investigate the strike. On Fitzpatrick's left are seated William B. Rubin, counsel for steel workers (writing) and Senators Walsh of Massachusetts and Jones of New Mexico.

### WILL INAUGURATE SAFETY WEEK IN CITY OF CLEVELAND

Cleveland, Sept. 29, 1919.—Preparatory to the opening of the eighth annual congress of the National Safety Council here October 1, "Safety Week" will be inaugurated in Cleveland tomorrow. The day will be "Safety Sunday" in all churches in the city, and sermons emphasizing the moral obligation imposed upon every person to protect their own lives and the lives of others will be preached.

An effort will be made to enlist every man, woman and child in Cleveland in a campaign to prevent accidents, which last year exacted a toll of 1,300 persons killed and 32,000 injured in this district alone.

Safety shows will be given in all of the high schools, twenty of the city's leading organizations will hold special meetings which will be addressed by national safety experts, and the city fire department will hold daily demonstrations in the public squares of modern fire fighting. Low rescues may be accomplished and how to handle live wires.

A huge accident clock will record the progress of the campaign for safety, the object being to keep the clock from registering a single accident during the week.

### DIGS FOR WATER AND STRIKES OIL

Mattoon, Ill., Sept. 29.—Edward D. Champion wanted water for his horses. He is a wealthy farmer of Coles County and owns several large herds of horses. For many years the problem of supplying them with water disturbed him. He couldn't get it by digging wells on his farm. Last week he tried the well digging scheme again. Fifty-one feet down workmen were hurled aside by a natural blast that threw mud and water everywhere. This was followed by a heavy flow of gas and oil. The discovery promises to increase Mr. Champion's wealth, as he is considering the development of his find to supply gas, light and fuel to surrounding cities.

## REDS AND WHITE SOX ARE "ALL SET"

Cincinnati, Ohio, Sept. 29.—With the first world's series clash between the Red and White Sox scheduled for Wednesday, Cincinnati is a whirl of excitement and expectancy today.

For weeks this hot old base ball center has been working itself into a frenzy as the Reds rolled down the front stretch in front of the field, and beat the Giants of the first pennant Cincinnati has won in almost half a century.

Kid Gleason and his American League champions will arrive from Chicago tomorrow.

Cincinnati is hilariously happy and wonderfully proud of the Reds. She believes in them in an Moran. Proof that the White Sox are respected here lies in the fact that most of the betting favors Chicago at odds of 6 to 5 and that no cyclone of betting has struck to date.

These odds have prevailed as a rule in betting to date, both on the first game and on the series.

Hotels are overcrowded.

Speculation regarding the pitchers for the opening game leans toward Cicotte for the Sox against Sallee or Reuther for the Reds. Cicotte is figured a "sure bet" but Manager Moran, it is rumored, may start any one of three pitchers, which leaves a loop hole for Eller.

### J. ORRIN DONOVAN HOME FROM FRANCE

Major J. Orrin "Dooley" Donovan, former manager of B. F. Keith's theater in Dayton, who has many relatives in this city, arrived in Dayton Sunday for a visit with his mother, after spending 16 months overseas. Major Donovan was assistant chief of staff of the first army until the armistice was assigned when he was put in charge of various troupes of entertainers which furnished amusement for the A. E. F. He will be located in Washington for a time attached to the new war plans division of the army.

### O. N. G. COMPANIES ARE MOBILIZED IN READINESS FOR STRIKE TROUBLE

Columbus, O., Sept. 29.—Twelve infantry and three auxiliary companies of the Ohio national guard, under the command of Colonel Benson W. Hough, have been mobilized. Whether the movement of these troops is for the purpose of watching the situation at Steubenville and Mingo junction or whether they are mobilized for other purposes, has not been given out at the governor's office today.

Following the telegram of Governor Cox to Governor Cornell, of West Virginia, that "he would watch the situation," it is taken in guard circles to be but a precautionary measure in case the threatened march of strikers from the Steubenville district takes place to Weirton, W. Va., today.

#### EMERGENCY?

Columbus, Sept. 29.—Under orders issued yesterday, the national guard of Ohio is today mobilizing "for any emergency that may arise."

This call for mobilization was issued by Governor Cox, because of the threatened situation at Steubenville, which today apparently has been averted.

## OMAHA THE SCENE OF LYNCHING WHEN MOB RUNS RIOT

Mayor Smith Dragged Through City By Rope Around His Neck, Now at Point of Death. Federal Troops in Control

### MILLION DOLLAR COURT HOUSE GUTTED BY FIRE--TROOPS IN CHARGE

Omaha, Neb., Sept. 29.—Victim of an angry mob that put a rope around his neck and dragged him through the streets when he refused to order a negro prisoner turned over to it, Mayor Edward P. Smith is reported in a precarious condition today from injuries inflicted by his assailants. It is reported from the hospital where Mayor Smith was taken after the mob had attempted to lynch him that he is unconscious and that death may result.

The attack upon the Mayor was an outstanding incident in a night of lawless terror in which six persons were killed, a score or more injured and Omaha's million-dollar court house gutted by fire. William Brown, negro prisoner, whose attack upon Miss Agnes Lobe, a white girl, aroused the anger of the mob, was taken from the jail and hanged to a trolley pole. Afterward his body was riddled with bullets and dragged through the streets.

Conditions are quieter this morning and federal troops are on guard to reinforce the Omaha police. Scattered mobs are still roaming the streets, but it is believed the presence of the troops will prevent further violence.

Mayor Smith was in the court house when the mob assembled there to demand that Brown, a prisoner in the county jail be handed over to it. He attempted to leave the building, but the mob grabbed him, demanding that he order the sheriff to give it the negro.

The mayor refused and a rope was thrown about his neck. He was dropped to 16th and Harney streets where an attempt to hang him to a telephone pole was made. The police rescued him, but the patrol wagon in which the police came to aid was overturned and burned. Later a second attempt to lynch the mayor was made, but he was saved by the police and taken to a hospital.

Under orders from Major General Leonard Wood, commanding the Central Department of the army, soldiers from Fort Crook started for Omaha at 1 o'clock this morning. Before daybreak a guard of federal troops had been thrown around the courthouse and other buildings in the downtown section. Troops also were sent to the negro section of the town where mobs were reported preparing to kill negroes and burn their homes.

Douglas County's new courthouse today recalls shell shattered buildings of the war zone. Windows are shattered on every floor of the building and the walls and interior are smoke blackened and burned by the fire started by the mob. The lynching of Brown, the attack on the mayor and the burning of the courthouse followed a sensational nine hour battle between officers and the mob which sought to take the negro from the county jail. Thousands of white men and women, forming the mob, battled with the entire Omaha police force reinforced by Sheriff Michael Clarke and all his deputies. Hundreds of shots were fired.

One soldier was shot and killed and four other members of the mob are said to have lost their lives. These, with the hanging of Brown, the negro make a death toll of six, according to most accurate reports this morning. The mob first began forming about 2 o'clock Sunday afternoon and gradually increased in number until about 6 o'clock when a shower of stones was hurled at the court house. The police turned a hose upon the

# SANDRA THE JEALOUS

BY JANE PHELPS.

CHAPTER LXIX.

As I had expected, my wardrobe made quite a stir. While I had lost my sapphires a still possessed enough jewelry to cause comment and envy among the girls I had known before I married. They copied my dresses with tissue paper to have a pattern they might use when they added to their own wardrobes. When I told them it would soon be out of style they paid no attention, save to say they would risk it.

I was most childish in my desire to show them how much I had. Perhaps had I not been for Rose's visit and her gossip later she returned home, I should not have been quite so silly. Rose, I think as ever told me one day that the girls thought I was awfully stuck up and that the boys were afraid of me. I laughed, but in reality I was pleased.

"I told them they needn't envy you even if you did have lovely clothes and a wonderful home, with servants and everything—that you weren't allowed to do a single thing you wanted to."

"You told them what wasn't for I retorted angrily. I wanted to come home and here I am."

Then I recalled Everett's actions when Rose was with me, and said more quietly "Everett has changed. He is so lovely to me—most of the time now. We go to the theaters a lot and now he dances with me when we go to supper. He thought I was too young to do the things I wanted to when I was first married—that I wasn't poised enough to know how to meet so many new people. But I wouldn't change him now for anyone in the world. When I see other men—and the boys here at home—I am so proud of him I don't know what to do. He is so clever, so handsome and people all look up to him. To save my life I couldn't help bragging a little."

"I'm sorry for you just the same."

"You needn't be. I don't need sympathy I tell you. Goodness, Rose, I almost shiver when I think I might have married one of the town boys. Why, all they think of is taking a girl to the movies, or the corner drug stores! What kind of a home would I have had with them?"

"Perhaps as good as the one you have now by the time they were as old as Mr. Graham."

"Yes, and I would be a tired or worn out old woman by that time. This was a new thought to me so I expatiated upon it. "You see I would have to work hard to help, like all the girls who marry poor boys their own age. They by the time they got where they could give me things I wouldn't care a hang whether I had them or not. My good looks would be mostly gone and I would be so old I wouldn't care for lovely clothes and motor cars and things."

"Don't fool yourself, Sandra. You'd care just as much, and more, too, because you had helped earn them. That's what Mother says anyway. Father was poor when she married him and they worked hard together. Now she has it easy and she just loves it." I knew Rose's father was considered one of the few very rich men in town, and that her mother had luxuries that my mother never had dreamed of having.

"You talk like a minister," I said with a laugh. I hated to keep telling Rose how much I cared for Everett, but when she talked as if I had done the most foolish thing possible in marrying him, I just had to. Very unwisely I had confided to her that I was studying, that Everett had engaged Mrs. Barr to tutor me in the things in which I was deficient. Now she spoke of that:

"I would be so insulted to have a man I married hire someone to teach me as if I were a school girl. I don't see how you endure it."

"I was annoyed at first, Rose, but when I saw how clever all the women in Everett's class were even those who were very young. I made up my mind I would be clever too, and since then I haven't felt badly to have Mrs. Barr teach me. If I was just taking French or some language no one would think anything of it. Why shouldn't one study other things as well—that is, if they need to? You see, Rose, lots of girls nowadays go to college, and they learn things that help them appear well—because they are associated with the teachers and older girls—which girls who live at home and only go to high school do not learn. My argument sounded foolish and weak, but it seemed to impress Rose.

"Perhaps it's all right," she conceded grudgingly, "but I wouldn't do it." Then she changed the subject and began talking of Barrett Edmonds, as she invariably did. He had made a great impression upon her, and she constantly hinted for another invitation to visit me—which I did not extend owing to Everett's caution.

Anyway Barrett was in Europe on

## STATE TAKES THE XENIA PIKE JOB

Machinery for crushing stone is being unloaded at the Baltimore and Ohio Railroad station today, by the State Highway Department, and the plant will be set up at the Oglesbee quarry, north of the city, and the stone used by the State to complete the construction of the road from Dutch Creek northward to the Greene County line.

Having been unable to sell the contract of resurfacing the road, the State brought one of its own outfits here from Marietta, and will undertake the job on its own behalf. County Surveyor Collett will have charge of the work as local official, and will O. K. all bills to the State Department.

The work will begin at once—or as soon as the machinery can be put into operation.

The Lunsford concern, which has been building the Xenia road from Mt. Pleasant towards Wilmington, has completed two miles of the road, and the work is to be given more speed from now on, the Surveyor says. The time limit fixed in the contract of the builders has expired, but it is thought they will be given an extension, provided they show that it will be possible to finish the job within a reasonable time.

With the beginning of new work on the northern end of the road and the closed road from Antrams Corner to Tedds Fork, the entire course of the road from this city to the Greene County line will be tied up, it appears.—Wilmington News.

## Sure Relief

## MRS. SANFORD'S MESSAGE TO WORKING WOMEN

Laurel, Miss. — "Eight years ago I was suffering with pains and weakness caused by a female trouble. I had headaches, chills and fevers, and was unable to do my work part of the time. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took twelve bottles of it, and my health has been good ever since. I am able to run the machine and do dress-making besides my housework. You are at liberty to publish my letter if it will help some poor suffering woman."

—Mrs. J. C. SANFORD, 1237 Second Ave., Laurel, Miss.

Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Sanford, or suffering from displacements, irregularities, inflammation, ulceration, backache, sideache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Sanford's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did. For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their long experience is at your service.

## Share in the Profits of The Farm Tractor Business—the coming great industry

Today there is a steadily increasing, world wide demand for farm tractors to replace horse power in all kinds of agricultural work. The filling of this demand gives the farm tractor business splendid money making possibilities. Big Business men and financial experts are of the opinion that the remarkable profits paid to the investor in recent years by the automobile and motor truck industries will be repeated in the farm tractor business.

As a splendid investment opportunity in the farm tractor industry we offer the remaining portion of The Reliable Tractor and Engine Co., 7% cumulative participating preferred stock at \$100 per share with a 20% bonus of common stock.

This Company is an established and going concern manufacturing farm tractors and gas engines. It has taken over the assets of The Reliable Engine Company of Portsmouth, Ohio, which were over \$400,000 net. The plant and organization is to be moved to Cincinnati, expanded and a quantity production established.

The net earnings of The Reliable Engine Company on gas engine business alone for the past 4½ years amounted to about \$160,000. In addition all expenses of developing The Reliable Tractor were taken care of. This Tractor made perfect records at recent demonstrations in Columbus, Middletown, Fostoria and Akron, Ohio.

The new Company's gas engine business established on a quantity production will alone provide profits more than sufficient to pay the preferred dividend requirements of the new stock issue. All profits made on farm tractors will be extra.

We offer and recommend

The Reliable Tractor and Engine Company, 7% cumulative participating preferred stock \$100 per share—Bonus of 20% common stock.

The preferred stock is par \$100 and the common stock is par \$10. The preferred stock of The Reliable Tractor and Engine Company in addition to paying 7% cumulative dividends will participate equally with the common stock in all profits after the 7% preferred dividend and a 7% common dividend is paid. Each investor shares in all the net earnings of the Company, being first preferred as to 7%, payable semi-annually in January and July.

A comprehensive exhibit of the tractor and the gas engine manufactured by this Company awaits the investor's inspection at the Ground Floor Exhibit Room, Union Central Building, Cincinnati.

We have prepared a special illustrated circular giving further information concerning The Reliable Tractor and Engine Company. If interested we will gladly send a copy upon request.

A visit to this exhibit or the reading of our special circular will provide the investor with ample proof that the farm tractor industry has excellent profits ahead and that this Company's capable management, progressive business methods and proven products insure a future with splendid investment possibilities.

## CAMPAIGN ISSUES EXPLAINED AT UNION CHURCH SERVICE

The four issues in the dry campaign this fall were explained, and a brief resume of the fight for prohibition given by the Rev. Charles Bennett, in addressing a large congregation at the union service at the First Methodist Episcopal church Sunday night. He explained that the four proposals to be voted on in Ohio November 4th, were petitioned for by the liquor interests. Two amendments to the constitution proposed by initiative petition, would if adopted define intoxicating liquor as liquor containing more than 2.75 per cent alcohol, and would repeal the state wide prohibition amendment adopted last fall. The two referendum proposals were petitioned for by the wets in an effort to undo the action of the legislature in ratifying the national prohibition amendment.

After Rev. Mr. Bennett's address, the Rev. H. C. Biddisum, county dry manager, gave a brief talk, on the benefits that have been derived from prohibition in Xenia.

## EAST END NEWS

The funeral of Mrs. Mary Belle Jenkins will be held from the Middle Run Baptist church Tuesday afternoon at 2 p. m.

## BURGLARS MAKE BIG HAULS IN DAYTON

Burglars blew the safe in the office of the Lyric theater, at Dayton, early Sunday morning, obtaining \$100 in Liberty bonds, a quantity of stamps and a blank contract valued at \$2,000.

The robbery resembles in some instances the safe-cracking job at the Troy-Pearl laundry in Dayton, Saturday night. In each instance the burglars used black powder and soap to blow the safe.

In the laundry burglary the thieves entered the place, forced the watchman to make his customary calls at 10:30 and 11:30 p. m. When the 12:30 call did not come in to police headquarters, a messenger was sent and he found the watchman and driver handcuffed to bottom of the elevator shaft.

The safe had been robbed of nearly \$800.

## WESTERN GUESTS GREETED BY MANY AT GRIEVE HOME

Masses of garden flowers, and the glowing summer cypress decorated the home of Mrs. R. R. Grieve on West Market street, for her informal tea, Saturday afternoon, honoring Mrs. James Holmes, Miss Ida Holmes and Miss Elizabeth Crawford, California visitors in the city.

One hundred and twenty-five guests called between two and five o'clock, and the hospitality of the Grieve home was extended most graciously. Tea and wafers were served and the hostess was assisted in extending the hospitality of the home by the following:

Mrs. James Patterson, Mrs. Elbert R. Andrews, Mrs. Frank Hagler, Miss Mary Bickett, Misses Margaret and Mary Lackey, Mrs. Jacob Baldner, Mrs. C. H. Kyle, Mrs. C. L. Babb and Miss Alma Babb.

Mrs. Holmes, Miss Holmes and Miss Crawford lived in Xenia until they went to California a number of years ago, and that they have retained the warm friendship of Xenia and Greene county people throughout the years of their separation, was shown by the large number who called to greet them at the Grieve home.

## EVERY MEMBER OF MY FAMILY TAKES THE NEW REMEDY

Columbus Contractor Got So Much Good From Dreco, Puts the Others to Taking It Also.

Here is a strong endorsement given to Dreco, the new herbal remedy, by a substantial citizen of Columbus, O. He is Mr. P. W. Wilson, contractor having lived in South End for the past six years, and is the proud father of two children. He says: "The cases I read about in the papers seemed to fit mine exactly, so I got a bottle of Dreco. I stayed bilious all the time and gastritis attacked me after each meal. I had a burning sensation in my stomach. My kidneys seemed to be deranged, and I had to get up several times during the night; my back was weak and often ached."

"I've finished my first bottle, and now I want some more, for I want every member of my family to take Dreco. It has done me worlds of good, and I strongly recommend it." Persons suffering from constipation, weak kidneys, sluggish liver, poor digestion, or stomach trouble of any kind, are advised to give Dreco, the great root and herb remedy, a trial. It overcomes gastritis, indigestion, and dyspepsia, aiding the stomach to carry its load. Rouses a sluggish liver to healthy action; gives strength to weakened, deranged kidneys; relieves constipation; induces sound, refreshing sleep, and increases the appetite, thereby giving renewed strength to weakened, deranged kidneys.

All good druggists now sell Dreco and it is highly recommended in Xenia by Sohn's Drug Store.

## PAVING BIDS OPENED MONDAY MUCH LOWER

Bids for street paving were opened Monday noon at the city building. Before the bids can be tabulated, however, it is impossible to give the exact estimates, but it is assured that all of the bids are lower than they were the first time.

Four new bidders also turned in their bids at this time, and the rest of them were practically the same odders as bid formerly.

The new bids were made necessary when the first bids were rejected by the city commission, because they were too high.

## Use Famo for the Hair—As You Use Any Other Medicine—Every Day

FAMO is a medicine for the hair, and should be used as a medicine at least every morning.

Americans have been, and are, notoriously neglectful of both their teeth and their hair.

Result—the almost universal prevalence of the twin scourges—pyorrhea and seborrhea.

Seborrhea is the deadly germ that kills the hair, and only by keeping after it with FAMO can you save your hair and make it grow.

FAMO does unquestionably kill the seborrheic germ—clears the head of this pest; more often than not in a single application.

FAMO does grow new hair, even when people are careless and only apply it infrequently.

But it is not fair to yourself, your hair, or FAMO, to run chances.

And you are running chances, if you use FAMO only once a week, or every now and then.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrheic excretion forms in scales or flakes and is commonly known as dandruff.

Life is a building. It rises slowly day by day, through the years. Every new lesson we learn lays a block on the edifice which is rising silently within us. Don't burn good fuel in a poor stove

Its a useless waste of good fuel and a needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment, if your food does you no good, if food distresses rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEP SINCO.

### THE LABOR STRIKE.

There is a good deal of misconception about the meaning of the words "open shop" in the labor movement. Many persons have been regarding it as a term which implies that no union men will be employed. That is not so, for thousands of union men are at work in the steel mills, and further, because they are paid wages in excess of the union scale, have been satisfied, and did not want this strike, but because of their affiliation with the union, many of them felt it their duty to join with the others and quit work.

This condition has been stimulated by the radical portion of the unions, men who make it their business to foment discontent—the "walking delegates" who live off the unions—men like Wm. Z. Foster, who has been shown to be a former I. W. W. promoter. Their stock in trade is to preach discontent against capital and to impress the employees with hatred of the employer as the bloated blood-sucker ever ready to oppress the workman. Of course it is the ignorant foreigner with whom they have their easiest work, because of his lack of knowledge of true Americanism.

What the country most needs is more strict laws against revolutionary movements to overthrow the government, and schools to teach foreign-born English and Americanism. It is not to be wondered at that men who do not understand a word of our language, and maintain their former nationality associates as a class, are easily duped into the belief that they are being oppressed here as they were by their rulers before coming here. They are babes in Americanism. They need New World Kindergarten schools to teach them the alphabet of Americanism. It would be money in the pocket of the country to provide such.

It seems a shame that the very thing that is the pivotal drawing card of our country to all others—that America is the mecca for the oppressed of the earth—should be taken advantage of by designing demagogues to try to undermine the government of this blessed land.

The nation is distressed at the news of President Wilson's illness. God grant that it may be only temporary, for all are looking with hope to the proposed Capital and Labor Convention which he has called for October 6th, and are hopeful, with his advice and the co-operation of so many leading citizens, that some common sense and just remedy may be found for the unrest that now exists over this nightmare of dissension.

### STRAIGHT THINKING.

A recent magazine sketch of a man who has multiplied the size of his business fifteen times since it was turned over to him by his father thirty years ago, lays especial stress upon his quality of "straight thinking." He possesses, it seems, a mind that is impatient of frills and side issues. Men who call upon him with the idea of leading up to a subject in the course of half an hour of rambling talk are disconcerted by his way but not altogether without it.

of stripping off the conversational husks and exposing the real topic of the discussion. When a matter is under consideration he insists upon talking about that matter and not about a quantity of other things. He is not particularly quick in his decisions; even when he has decided, he is willing to revise and amend upon due occasion; and he is not afraid to admit he was wrong and to start all over. But when he thinks and when he talks he digs straight into the heart of what he is thinking or talking about—and it is no wonder he is successful.

Most persons waste a great amount of their time and the time of others in loose and rambling dissertation. In politics, as in war, there may be art in dissimulation; sometimes in business it is good strategy to draw the other fellow out—if he doesn't know you are doing it. But in their normal relations of people with one another there is usually no reason why the immaterial, the casual and the conjectural should not be omitted—unless, of course, mere talk for talk's sake is the business of the moment.

### THE CALF PATH

One day through the primeval wood  
A calf walked home as good calves should,  
But made a trail all bent askew,  
A crooked trail as all calves do.

Since then two hundred years have fled,  
And I infer, the calf is dead.  
But still he left behind his trail,  
And thereby hangs a moral tale.

The trail was taken up next day  
By a lone dog who passed that way;  
And then a wise old bell-wether sheep  
Purchased the trail o'er vale and steep,  
And drew the flock behind him, too.  
As good bell-wethers always do.

And from that day o'er hill and glade,  
Through those old woods a path was made;  
And many men wound in and out,  
And dodged and turned and bent about,  
And uttered words of righteous wrath  
Because 'twas such a crooked path.

But still they followed—do not laugh—  
The first migrations of the calf,  
And through this winding roadway stalked,  
Because he wabbled when he walked.

This forest path became a lane,  
That bent and turned and turned again;  
This crooked lane became a road,  
Where many a poor horse with his load

Toiled on beneath the burning sun,  
And traveled some three miles in one.  
And thus a century and a half  
They trod the footsteps of that calf.

The years passed on in witness fleet,  
The road became a village street;  
And this before men were aware:  
A city's crowded thoroughfare;  
And soon the central street was this  
Of a renowned metropolis.

And men two centuries and a half  
Trod in the footsteps of that calf.  
Each day a hundred thousand rout  
Followed the zig zag calf about;  
And o'er the crooked journey went  
The traffic of a continent.  
A hundred thousand men were led  
By one calf three centuries dead.  
They followed still his crooked way.  
And lost one hundred years a day—  
For such a reverence is lent  
To well established precedent.

A MORAL lesson this might teach,  
Were I ordained and called to preach;  
For men were prone to go it blind  
Along the calf paths of the mind,  
And work away from sun to sun  
To do what other men have done.

### CHARMING AFFAIR AT MCGERVEY HOME

Mrs. W. H. McGervey was hostess Friday evening at a very charming affair, when she entertained members of the choir of Trinity church for the pleasure of Miss Glenna Barrows, who will soon go to Florida to live. Miss Barrows has been one of Trinity's soloists and most interested and faithful choir members for several years and a company of 45 gathered to say good by to her. The company included two of the former organists at Trinity, Mrs. Laura Alexander, and Miss Alma Babb, as well as the present organist, Miss Stella Bishop, The Rev. and Mrs. V. F. Brown were also among the guests. Guessing the identity of the baby photographs of the guests, was a feature of the evening, which caused much merriment. There were also other contests, and a musical program. An ice course was served.

**Good Advice to Women.**  
Do not be afraid to rest your feet. Sit down at your work whenever you can; a chair in the kitchen is a great foot conservator. On may walk all day long upon two feet without injury, but cannot stand perfectly still, as when paring the dinner vegetables, ironing the small pieces, etc., for a quarter of an hour without a crippling degree of fatigue and a risk of serious injury to the feet.—Chicago Daily News.

## XENIA MAROONS DOWN PIRATES IN FIRST GAME

Slashing off-tackle bucks, brilliant forward passes and an impregnable defensive game, helped the Xenia Maroons to start the initial game of the season with a win Sunday afternoon, defeating the Springfield Pirates at Reserve Park, 62-0.

The brilliant generalship of "Yank" Stevens, former High School star, and the terrific line charges of Buck, Walker, Wilson and W. Leahy, rendered the opposition helpless, and after Buck had crossed the goal line in the first few minutes of the play, the Maroons scored at will.

The game was featured by the terrific line plunges of Buck, Walker and Leachey, the brilliant passing and dodging of Stevens, and a sixty yard run by Derrick, who toted a long pass to the ten yard line before he was dragged down. The ball was in the possession of the locals most of the game and the visitors could not even make their downs. They were never dangerous.

After Springfield had recovered a fumble on their own 5 yard line, Stevens intercepted a forward pass and it was Xenia's ball on the 11 yard line. Buck toted the leather the remaining distance to the goal. Buck missed goal. A few minutes later after Stevens and Leachey had carried the ball to the 11 yard line, Buck again crossed the whitesash, on a 11 yard buck. Buck again missed goal.

After Springfield had punted following the next kick-off, Derrick carried the oval for fifteen yards around end, and a moment later Stevens crossed the goal line. Buck again missed goal. The quarter ended with the score 15-0. Stevens was on the receiving end of a pass that netted 30 yards, and line charges by Buck, Stevens and Walker carried the pigskin to within striking distance of the goal again where W. Leachey scored and Hoag kicked goal, making the score 25-0.

Stevens, Hoag, Walker and Buck took turns carrying the pellet the next trip, Walker scoring. Hoag missed goal. Stevens intercepted a pass on Xenia's own yard line after Springfield had recovered a fumble and a moment later Derrick was on the receiving end of a long pass that netted 60 yards. Wilson scored on a 20 yard pass. Derrick missed goal.

Following the next kick-off Stevens carried a pass sixty yards, and was forced off-side or would have scored. Derrick scored this time on a short pass into the end zone and Fuller kicked goal.

In the fourth quarter, M. Leachey, stepping into a Springfield forward pass raced across the goal line from the 10 yard line for a touchdown. Hoag missed goal. After Buck had made 40 yards off tackle Stevens tore off fifteen yards for another score. M. Leachey missed goal. The count was run up to 62 with only a few seconds left to play when Walker, M. Leachey and W. Leachey toted the leather to within a few yards of the goal, from where Captain Wilson scored. Wilson missed goal, the count standing at 62-0.

One of the largest crowds to attend independent football here was out for the fracas. Next Sunday the Maroons play the Beavers of Dayton.

The lineup:

Xenia Springfield  
Hoag ..... Le Hammerie (Cap)  
M. Leachey ..... L. L. Loudermilk

Home means comfort and good cheer when there is a CALORIC FURNACE in the basement.

Your slippers, pipe, favorite reading and the CALORIC are a combination that make you forget the howling wind and drifting snow. And how the wife and children appreciate such a home—warm and comfortable in every room.

More than 50,000 satisfied users testify to the splendid success they have had with the

This is the furnace which has revolutionized heating. Instead of using numerous pipes and registers, it heats the entire house through only one register. It is therefore easily installed in new or old houses, usually in one day, without interfering with your present heating arrangements.

The CALORIC heats all types of homes up to eighteen rooms, also churches, stores, factories, halls and other buildings. It burns coal, coke, wood, gas or lignite, and because of special patented features, saves from 1/3 to 1/2 your fuel. The CALORIC is sold under the Monitor Iron-clad Guarantee, which insures the purchaser thorough and economical heat.

# SAYS NERV-WORTH HAS BEEN A BOON TO HER HUSBAND

MRS. J. H. GENTNER, OF ALPHA, GLOWINGLY PRAISES THIS FAMOUS FAMILY TONIC.

Mr. Gentner is the well known Alpha carpenter. His many friends will read of the recovery of his health with pleasure and interest. Said Mrs. Gentner not long ago:

Sayre & Hemphill—My husband was restless and nervous. Couldn't sleep at night and felt worse on getting up than when he went to bed. His stomach was out of order and he had no appetite. He has taken one bottle of Nerv-Worth and feels great improvement. Stomach no longer bothers him. Sleeps fine; and he feels refreshed on getting up. Nerv-Worth surely has been a boon to him. We recommend it most highly.

MRS. J. H. GENTNER, Alpha, Ohio.

Nerv-Worth steadies and strengthens the nerves, whets the appetite, adds flesh, aids digestion, rouses the liver, regulates the bowels, restores restful sleep, banishes sick and nervous headache and other aches and pains, builds up run-down systems. Your money back at Sayre & Hemphill's, Xenia, if Nerv-Worth does not benefit you. W. F. Harper sells Nerv-Worth at Jamestown. adv

**MANY XENIA PEOPLE TAKE TRIPS ABOVE CITY**

Thirty-five people accepted the opportunity to go joy-riding in the clouds Saturday afternoon and Sunday when they flocked to the Shoup field on Dayton Hill and crowded each other to ride with Wallace Pearson, Troy airman, who flew from the field both days.

The birdman did not attempt air "stunts" with many of his passengers, but confined their initial trip to pleasure jaunt over the clouds above

Xenia, giving them an opportunity to get a birds-eye view of the city. With only one passenger, Miss Mary Coates, did the aviator attempt any "stunts" in the two days flying and on the request of his passenger he treated her to some lively air feats.

Those who made the trips up during the two days were: Miss Pauline Shoup, L. E. Johnson, Paul E. Glass, B. S. Chance, W. R. Bone, E. H. Heathman Fred Norekauer, Dr. A. D. DeHaven, Jack Eavey, Fred Haines, Harley Swone, Harry Lott, Crampton Lott, Russell Peterson, R. J. Reinhardt, Dr. N. T. Pavey, C. L. Bavliff, H. L. Hilliard, Henry Flynn, J. P. Rocklett, Frank Hutchison, Miss Mary Coates, Michael Foody, Miss Helen Wike, Thomas Ralls, J. W. Huston, G. Devine, E. Linkhart, Mrs. Amos Faulkner, Roscoe Coy, Paul Hill, Chester Mallow, Lawrence Moore, Delvin Hilton and George Shoup.

Lieutenant Don Campbell, flyer, who was supposed to have been here a week ago Saturday, but who remained in Washington, C. H., until Tuesday and then landed at Wright Field after an unsuccessful attempt to fly to Bellefontaine, alighted at the Shoup field Sunday evening.

Lieutenant Campbell was passing over when he saw the other plane, alighting so he landed here and tied his machine up for the night.

Aviator Pearson left Monday for Chillicothe where he will fly for two days, and from there he will go to Union City, Ind., where he will fly for four days.

**MORE EFFICIENCY OF WAR DEPARTMENT**

Milford, Mass., Sept. 29.—Ernest H. Johnson, a Milford war veteran, is having a difficult time persuading the War Department that he is, in fact, not dead, as the department's records show. Despite the fact that he has sent several letters, endorsed by town officials, to show that he is alive, the department has not corrected its mistake.

The latest development in the situation is a letter from the War Department directing Johnson's wife to return all allotment money she received after November 4, 1918, when according to the department her husband died. Tiring of the controversy as to his vital status Johnson had his wife write back that she would return the department money as soon as the department sent her the \$19,000 war risk insurance he took out when he entered the service.

**Who'd a Thought it?**

Reform is the work of reason slowly awakening from the lethargy of ignorance, gradually acquiring confidence in her own strength, and ultimately triumphing over the dominion of prejudice and custom.

**INDIAN WAR VETS OPEN CONFERENCE**

Wichita, Kan., Sept. 29.—Veterans of the Indian wars are here for a two-day conference of the famous Indian Fighters of America, which is meeting in connection with the Kansas department of the American Legion at the International Wheat Show of Wichita.

Many of those who followed Sheridan, Cook, Terry, Custer, Forsythe, Miles and others in the many raids and wars after the Civil War, are still alive and will attend.

**I. O. O. F. TO HOLD BIG TRI-COUNTY MEET IN DAYTON**

An important tri-county meeting of the I. O. O. F. with Montgomery, Preble and Greene counties taking part will be held in Dayton October 21, and is expected to bring together a large representation of the 26 lodges in those counties.

E. W. Titt, of Stockdale, grand chancellor of the Grand Lodge of Ohio will be present as an official guest, and will give an address, as will other prominent men who are expected to attend. The knight rank will be conferred upon class of candidates during the meeting, the work being conducted by the degree team of Iola Lodge, Dayton.

I don't like these cold, precise, perfect people, who, in order not to speak wrong, never speak at all, and in order not to do wrong, never do anything.—Beecher.

**LONG CONTROVERSY HAS BEEN SETTLED**

A lengthy controversy between the Greene county commissioners and the directors of The Miami Conservancy District over the repairs of certain roads in the conservancy basin in Bath township, in the vicinity of Wright field, which were damaged by the government, has been settled.

The commissioners have agreed to improve the road from the community house to the new road built by the Conservancy Directors. The Conservancy will furnish the gravel, which is to be taken from the pit on the Huffman farm. When the road is completed the Conservancy will pay \$5,000 to the commissioners, which sum the commissioners believe will cover the cost of the improvement of the mile of road. The commissioners, upon the payment of the \$5,000 will waive their claim for \$6,100 damages. The court costs will be paid by the conservancy.

The Conservancy agrees to complete relocation of roads and bridges along the Valley pike, on the north-east side of the proposed reservoir. The Conservancy will not be required to replace the former Springfield pike from Huffman Hill as relocated, through Wright Field to Fairfield, as the same is abandoned by the government.

**Big Lot of Hay Fever Jokes**

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are kidding themselves."

**Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.**

"Yes, there's a real NINTY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcine and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and snuff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcine say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

**7<sup>o</sup> A DAY FOR 7 DAYS**

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren Is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keep mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

## STEEL STRIKERS EXTEND OPERATIONS TO BETHLEHEM CO.

Bethlehem, Pa., Sept. 29.—The national steel strike spread to the Bethlehem Steel Company today. The strike order went into effect at 6 o'clock this morning.

Absolute quiet prevailed about the mills and it was impossible to say during the early hours how many men had obeyed the order to go out.

The police force has been increased to prevent disorder and orders were issued forbidding any gatherings by strikers.

### BOTH SIDES CLAIM PROGRESS

Pittsburgh, Pa., Sept. 29.—The second week of the nation-wide steel strike started today with both operators and strikers claiming the progress which will insure ultimate victory.

Operators confidently assert that the worst is over, that the strike had "shot its bolt," in the first week without winning and that from now on a steady increase can be expected in production and resumption of the industry generally. An air of optimism pervaded steel circles generally despite the throwing into effect of the strike order at the Bethlehem plants at Bethlehem, Steelton and other eastern Pennsylvania points.

For the first time since the strike started, the Carnegie plants at Homestead declared today every department operating 100 per cent. The plants there continued to operate all week though handicapped by the shortage of common labor.

### OFFICIALS DENY "WALK-OUT"

Baltimore, Md., Sept. 29.—According to officials of the corporation and steel workers at Sparrows Point, not a man went out at the Bethlehem steel company's plant there in response to the strike order issued by the national strike committee Saturday and was set for 6 o'clock this morning. A vote taken yesterday showed that only a few men cast their ballots in favor of striking. These men have been working on only half time recently. In normal times the steel and plate mills, which would be affected by a strike, employ about 6000 men. It is said at present about 5,000 men are employed at the plant.

### ATTORNEY KILLS SELF WITH PISTOL HE CARRIED ALL HIS LIFE

Leesburg, Ohio, September 29.—Henry A. Pavey, 75 years old, retired attorney, formerly of Hillsboro, Ohio, ended his life at the home of his brother, Fred, in this city, yesterday afternoon, by shooting himself in the mouth.

Yesterday afternoon Mr. Pavey requested his family physician, Dr. W. W. Glenn, Hillsboro, to visit him at Leesburg, this afternoon. Upon the doctor's arrival at Mr. Pavey's home, he seemed very nervous, it was said, and after several minutes' conversation, excused himself, and went into another room. At the sound of a shot, Dr. Glenn rushed to Mr. Pavey's room, where he found him dying on the floor.

Financial reverses are attributed as the cause of Mr. Pavey's ending his life. Although having inherited considerable money, financial losses, suffered several years ago, discouraged him to the extent that he devoted most of his later life to books, caring little for affairs of the world. The pistol which Mr. Pavey used was one which, it is said, he carried with him throughout his life and of which he frequently boasted that "it would keep him from ever becoming dependent, for as soon as it was evident that he must become dependent on friends he would not hesitate to use it."

Mr. Pavey was known widely

John H. Fitzpatrick, testifying before senate labor committee.

John H. Fitzpatrick, chairman of the national committee which organized the strike of the steel workers, was the spokesman for the striking employees at the investigation being conducted by the senate labor committee. He is shown answering the committee's questions. Senator Phipps of Colorado and Senator William Kenyon of Iowa are on the extreme right of photo. Kenyon introduced the resolution to investigate the strike. On Fitzpatrick's left are seated William E. Rubin, counsel for steel workers (writing) and Senators Walsh of Massachusetts and Jones of New Mexico.

### WILL INAUGURATE SAFETY WEEK IN CITY OF CLEVELAND

Cleveland, Sept. 29, 1919.—Preparatory to the opening of the eighth annual congress of the National Safety Council here October 1, "Safety Week" will be inaugurated in Cleveland tomorrow. The day will be "Safety Sunday" in all churches in the city, and sermons emphasizing the moral obligation imposed upon every person to protect their own lives and the lives of others will be preached.

An effort will be made to enlist every man, woman and child in Cleveland in a campaign to prevent accidents, which last year exacted a toll of 1,300 persons killed and 32,000 injured in this district alone.

Safety shows will be given in all of the high schools, twenty of the city's leading organizations will hold special meetings which will be addressed by national safety experts, and the city fire department will hold daily demonstrations in the public squares of modern fire fighting. Low rescues may be accomplished and how to handle live wires.

A huge accident clock will record the progress of the campaign for safety, the object being to keep the clock from registering a single accident during the week.

### DIGS FOR WATER AND STRIKES OIL

Mattoon, Ill., Sept. 29.—Edward D. Champion wanted water for his horses. He is a wealthy farmer of Coles County and owns several large herds of horses. For many years the problem of supplying them with water disturbed him. He couldn't get it by digging wells on his farm. Last week he tried the well digging scheme again. Fifty-one feet down workmen were hurled aside by a natural blast that threw mud and water everywhere. This was followed by a heavy flow of gas and oil. The discovery promises to increase Mr. Champion's wealth, as he is considering the development of his find to supply gas, light and fuel to surrounding cities.

### REDS AND WHITE SOX ARE "ALL SET"

Cincinnati, Ohio, Sept. 29.—With the first world's series clash between the Red and White Sox scheduled for Wednesday, Cincinnati is a whirl of excitement and expectancy today.

For weeks this hot old base ball center has been working itself into a frenzy as the Reds rolled down the front stretch in front of the field, and beat the Giants of the first pennant Cincinnati has won in almost half a century.

Kid Gleason and his American League champions will arrive from Chicago tomorrow.

Cincinnati is hilariously happy and wonderfully proud of the Reds. She believes in them in a Moran. Proof that the White Sox are respected here lies in the fact that most of the betting favors Chicago at odds of 6 to 5 and that no cyclone of betting has struck to date.

These odds have prevailed as a rule in betting to date, both on the first game and on the series.

Hotels are overcrowded. Speculation regarding the pitchers for the opening game leans toward Cicotte for the Sox against Sallee or Reuther for the Reds. Cicotte is figured a "sure bet" but Manager Moran, it is rumored, may start any one of three pitchers, which leaves a loop hole for Eller.

### J. ORRIN DONOVAN HOME FROM FRANCE

Major J. Orrin "Dooley" Donovan, former manager of B. F. Keith's theater in Dayton, who has many relatives in this city, arrived in Dayton Sunday for a visit with his mother, after spending 16 months overseas. Major Donovan was assistant chief of staff of the first army until the armistice was assigned when he was put in charge of various troupes of entertainers which furnished amusement for the A. E. F. He will be located in Washington for a time attached to the new war plans division of the army.

### O. N. G. COMPANIES ARE MOBILIZED IN READINESS FOR STRIKE TROUBLE

Columbus, O., Sept. 29.—Twelve infantry and three auxiliary companies of the Ohio national guard, under the command of Colonel Benson W. Hough, have been mobilized. Whether the movement of these troops is for the purpose of watching the situation at Steubenville and Mingo junction or whether they are mobilized for other purposes, has not been given out at the governor's office today.

Following the telegram of Governor Cox to Governor Cornwall, of West Virginia, that "he would watch the situation," it is taken in guard circles to be but a precautionary measure in case the threatened march of strikers from the Steubenville district takes place to Weirton, W. Va., today.

#### EMERGENCY?

Columbus, Sept. 29.—Under orders issued yesterday, the national guard of Ohio is today mobilizing "for any emergency that may arise."

This call for mobilization was issued by Governor Cox, because of the threatened situation at Steubenville, which today apparently has been averted.

#### BULL DURN 'EM.

Mexico City, Mex., Sept. 28.—In the same ring in this city, where thousands of bulls have been slaughtered and scores of bull fighters have been killed, and where Enrico Caruso will sing next Sunday, Jack Johnson knocked out Charles (Kid) Cutler in the sixth round this afternoon.

## OMAHA THE SCENE OF LYNCHING WHEN MOB RUNS RIOT

Mayor Smith Dragged Through City By Rope Around His Neck, Now at Point of Death. Federal Troops in Control

### MILLION DOLLAR COURT HOUSE GUTTED BY FIRE--TROOPS IN CHARGE

Omaha, Neb., Sept. 29.—Victim of an angry mob that put a rope around his neck and dragged him through the streets when he refused to order a negro prisoner turned over to it, Mayor Edward P. Smith is reported in a precarious condition today from injuries inflicted by his assailants. It is reported from the hospital where Mayor Smith was taken after the mob had attempted to lynch him that he is unconscious and that death may result.

The attack upon the Mayor was an outstanding incident in a night of lawless terror in which six persons were killed, a score or more injured and Omaha's million-dollar court house gutted by fire. William Brown, negro prisoner, whose attack upon Miss Agnes Lobe, a white girl, aroused the anger of the mob, was taken from the jail and hanged to a trolley pole. Afterward his body was riddled with bullets and dragged through the streets.

Conditions are quieter this morning and federal troops are on guard to reinforce the Omaha police. Scattered mobs are still roaming the streets, but it is believed the presence of the troops will prevent further violence.

Mayor Smith was in the court house when the mob assembled there to demand that Brown, a prisoner in the county jail be handed over to it. He attempted to leave the building, but the mob grabbed him, demanding that he order the sheriff to give it the negro.

The mayor refused and a rope was thrown about his neck. He was dropped to 16th and Harney streets where an attempt to hang him to a telephone pole was made. The police rescued him, but the patrol wagon in which the police came to aid was overturned and burned. Later a second attempt to lynch the mayor was made, but he was saved by the police and taken to a hospital.

Under orders from Major General Leonard Wood, commanding the Central Department of the army, soldiers from Fort Crook started for Omaha at 1 o'clock this morning. Before daybreak a guard of federal troops had been thrown around the courthouse and other buildings in the downtown section. Troops also were sent to the negro section of the town where mobs were reported preparing to kill negroes and burn their homes.

Douglas County's new courthouse today recalls shell shattered buildings of the war zone. Windows are shattered on every floor of the building and the walls and interior are smoke blackened and burned by the fire started by the mob. The lynching of Brown, the attack on the mayor and the burning of the courthouse followed a sensational nine hour battle between officers and the mob which sought to take the negro from the county jail. Thousands of white men and women, forming the mob, battled with the entire Omaha police force reinforced by Sheriff Michael Clarke and all his deputies. Hundreds of shots were fired.

One soldier was shot and killed and four other members of the mob are said to have lost their lives. These, with the hanging of Brown, the negro make a death toll of six, according to most accurate reports this morning.

The mob first began forming about 2 o'clock Sunday afternoon and gradually increased in number until about 6 o'clock when a shower of stones was hurled at the court house. The police turned a hose upon the

## SANDRA THE JEALOUS

BY JANE PHELPS.

### CHAPTER LXXIX.

As I had expected, my wardrobe made quite a noise. While I had lost my sapphires I still possessed enough jewelry to cause comment and envy among the girls I had known before I married. They copied my dresses with tissue paper to have a pattern they might use when they added to their own wardrobes. When I told them it would soon be out of style they paid no attention, save to say they would risk it.

I was most calist in my desire to show them how much I had. Perhaps had it not been for Rose's visit, and her gossip after she returned home, I should not have been quite so sure. Rose, Frank as ever told me one day that the girls thought I was awfully stuck up and that the boys were afraid of me. I laughed, but in reality I was pleased.

"I told them they needn't envy you even if you did have lovely clothes and a wonderful home, with servants and everything—that you weren't allowed to do a single thing you wanted to." "You told them that wasn't so?" I retorted angrily. I wanted to come home and here I am.

Then I recalled Everett's actions when Rose was with me, and said more quietly: "Everett has changed. He is so lovely to me—most of the time now. We go to the theaters a lot and now he dances with me when we go to supper. He thought I was too young to do the things I wanted to when I was first married—that I wasn't poised enough to know how to meet so many new people. But I wouldn't change him now for anyone in the world. When I see other men—and the boys here at home—I am so proud of him I don't know what to do. He is so clever, so handsome and people all look up to him." To save my life I couldn't help bragging a little.

"I'm sorry for you just the same." "You needn't be. I don't need sympathy. I tell you. Goodness, Rose, I almost shiver when I think I might have married one of the town boys. Why, all they think of is taking a girl to the movies, or the corner drug stores! What kind of a home would I have had with them?"

"Perhaps as good as the one you have now by the time they were as old as Mr. Graham."

"Yes, and I would be a tired or worn out old woman by that time." This was a new thought to me so I expatiated upon it. "You see I would have to work hard to help, like all the girls who marry poor boys their own age. They by the time they got where they could give me things I wouldn't care to hang whether I had them or not. My good looks would be mostly gone and I would be so old I wouldn't care for lovely clothes and motor cars and things."

"Don't fool yourself, Sandra. You'd care just as much, and more, too, because you had helped earn them. That's what Mother says anyway. Father was poor when she married him and they worked hard together. Now she has it easy and she just loves it." I knew Rose's father was considered one of the few very rich men in town, and that her mother had luxuries that my mother never had dreamed of having.

"You talk like a minister," I said with a laugh. I hated to keep telling Rose how much I cared for Everett, but when she talked as if I had done the most foolish thing possible in marrying him, I just had to. Very unwisely I had confided to her that I was studying that Everett had engaged Mrs. Barr to tutor me in the things in which I was deficient. Now she spoke of that.

"I would be so insulted to have a man I married hire someone to teach me as if I were a school girl. I don't see how you endure it."

"I was annoyed at first, Rose, but when I saw how clever all the women in Everett's class were even those who were very young. I made up my mind I would be clever too, and since then I haven't felt badly to have Mrs. Barr teach me. If I was just taking French or some language no one would think anything of it. Why shouldn't one study other things as well—that is, if they need to? You see, Rose, lots of girls nowadays go to college, and they learn things that help them appear well—because they are associated with the teachers and older girls—which girls who live at home and only go to high school do not learn." My argument sounded foolish and weak, but it seemed to impress Rose.

"Perhaps it's all right," she conceded grudgingly, "but I wouldn't do it." Then she changed the subject and began talking of Barrett Edmonds, as she invariably did. He had made a great impression upon her, and she constantly hinted for another invitation to visit me—which I did not extend owing to Everett's caution.

Anyway Barrett was in Europe on

## STATE TAKES THE XENIA PIKE JOB

Machinery for crushing stone is being unloaded at the Baltimore and Ohio Railroad station today, by the State Highway Department, and the plant will be set up at the Oglesbee quarry, north of the city, and the stone used by the State to complete the construction of the road from Dutch Creek northward to the Greene County line.

Having been unable to sell the contract of resurfacing the road, the State brought one of its own outfits here from Marietta, and will undertake the job on its own behalf. County Surveyor Collett will have charge of the work as local official, and will O. K. all bills to the State Department.

The work will begin at once, or as soon as the machinery can be put into operation.

The Lunsford concern, which has been building the Xenia road from Mt. Pleasant towards Wilmington, has completed two miles of the road, and the work is to be given more speed from now on, the Surveyor says. The time limit fixed in the contract of the builders has expired, but it is thought they will be given an extension, provided they show that it will be possible to finish the job within a reasonable time.

With the beginning of new work on the northern end of the road and the closed road from Antrams Corner to Tedds Fork, the entire course of the road from this city to the Greene County line will be tied up, it appears.—Wilmington News.

## Share in the Profits of The Farm Tractor Business —the coming great industry

Today there is a steadily increasing, world wide demand for farm tractors to replace horse power in all kinds of agricultural work. The filling of this demand gives the farm tractor business splendid money making possibilities. Big Business men and financial experts are of the opinion that the remarkable profits paid to the investor in recent years by the automobile and motor truck industries will be repeated in the farm tractor business.

As a splendid investment opportunity in the farm tractor industry we offer the remaining portion of The Reliable Tractor and Engine Co., 7% cumulative participating preferred stock at \$100 per share with a 20% bonus of common stock.

This Company is an established and going concern manufacturing farm tractors and gas engines. It has taken over the assets of The Reliable Engine Company of Portsmouth, Ohio, which were over \$400,000 net. The plant and organization is to be moved to Cincinnati, expanded and a quantity production established.

The net earnings of The Reliable Engine Company on gas engine business alone for the past 4 1/2 years amounted to about \$160,000. In addition all expenses of developing The Reliable Tractor were taken care of. This Tractor made perfect records at recent demonstrations in Columbus, Middletown, Fostoria and Akron, Ohio.

The new Company's gas engine business established on a quantity production will alone provide profits more than sufficient to pay the preferred dividend requirements of the new stock issue. All profits made on farm tractors will be extra.

We offer and recommend

The Reliable Tractor and Engine Company, 7% cumulative participating preferred stock \$100 per share—Bonus of 20% common stock.

The preferred stock is par \$100 and the common stock is par \$10. The preferred stock of The Reliable Tractor and Engine Company in addition to paying 7% cumulative dividends will participate equally with the common stock in all profits after the 7% preferred dividend and a 7% common dividend is paid. Each investor shares in all the net earnings of the Company, being first preferred as to 7%, payable semi-annually in January and July.

A comprehensive exhibit of the tractor and the gas engines manufactured by this Company awaits the investor's inspection at the Ground Floor Exhibit Room, Union Central Building, Cincinnati.

We have prepared a special illustrated circular giving further information concerning The Reliable Tractor and Engine Company. If interested we will gladly send a copy upon request.

A visit to this exhibit or the reading of our special circular will provide the investor with ample proof that the farm tractor industry has excellent profits ahead and that this Company's capable management, progressive business methods and proven products insure a future with splendid investment possibilities.

## BURGLARS MAKE BIG HAULS IN DAYTON

Burglars blew the safe in the office of the Lyric theater, at Dayton, early Sunday morning, obtaining \$100 in Liberty bonds, a quantity of stamps and a blank contract valued at \$2,000.

The robbery resembles in some instances the safe-cracking job at the Troy-Pearl laundry in Dayton, Saturday night. In each instance the burglars used black powder and soap to blow the safe.

In the laundry burglary the thieves entered the place, forced the watchman to make his customary calls at 10:30 and 11:30 p. m. When the 12:30 call did not come in to police headquarters, a messenger was sent and he found the watchman and driver handcuffed to bottom of the elevator shaft.

The safe had been robbed of nearly \$500.

Masses of garden flowers, and the glowing summer cypress decorated the home of Mrs. R. R. Grieve on West Market street, for her informal tea, Saturday afternoon, honoring Mrs. James Holmes, Miss Ida Holmes and Miss Elizabeth Crawford, California visitors in the city.

One hundred and twenty-five guests called between two and five o'clock, and the hospitality of the Grieve home was extended most graciously. Tea and wafers were served and the hostess was assisted in extending the hospitality of the home by the following:

Mrs. James Patterson, Mrs. Elbert R. Andrews, Mrs. Frank Hagler, Miss Mary Bickett, Misses Margaret and Mary Lackey, Mrs. Jacob Baldner, Mrs. C. H. Kyle, Mrs. C. L. Babb and Miss Alma Babb.

Mrs. Holmes, Miss Holmes and Miss Crawford lived in Xenia until they went to California a number of years ago, and that they have retained the warm friendship of Xenia and Greene county people throughout the years of their separation, was shown by the large number who called to greet them at the Grieve home.

## EVERY MEMBER OF MY FAMILY TAKES THE NEW REMEDY

Columbus Contractor Got So Much Good From Dreco, Puts the Others to Taking It Also.

Here is a strong endorsement given to Dreco, the new herbal remedy, by a substantial citizen of Columbus, O. He is Mr. P. W. Wilson, contractor having lived in South End for the past six years, and is the proud father of two children. He says:

"The cases I read about in the papers seemed to fit mine exactly, so I got a bottle of Dreco. I stayed bilious all the time and gastritis attacked me after each meal. I had a burning sensation in my stomach. My kidneys seemed to be deranged, and I had to get up several times during the night; my back was weak and often ached.

"I've finished my first bottle, and now I want some more, for I want every member of my family to take Dreco. It has done me worlds of good, and I strongly recommend it." Persons suffering from constipation, weak kidneys, sluggish liver, poor digestion, or stomach trouble of any kind, are advised to give Dreco, the great root and herb remedy, a trial. It overcomes gastritis, indigestion, and dyspepsia, aiding the stomach to carry its load. Rouses a sluggish liver to healthy action; gives strength to weakened, deranged kidneys; relieves constipation; induces sound, refreshing sleep, and increases the appetite, thereby giving renewed strength to weakened, deranged kidneys.

All good druggists now sell Dreco and it is highly recommended in Xenia by Sohn's Drug Store.

## PAVING BIDS OPENED MONDAY MUCH LOWER

Bids for street paving were opened Monday noon at the city building. Before the bids can be tabulated, however, it is impossible to give the exact estimates, but it is assured that all of the bids are lower than they were the first time.

Four new bidders also turned in their bids at this time, and the rest of them were practically the same bidders as bid formerly.

The new bids were made necessary when the first bids were rejected by the city commission, because they were too high.

## Use Famo for the Hair—As You Use Any Other Medicine—Every Day

FAMO is a medicine for the hair, and should be used as a medicine at least every morning.

Americans have been, and are, notoriously neglectful of both their teeth and their hair.

Result—the almost universal prevalence of the twin scourges—pyorrhea and seborrhea.

Seborrhea is the deadly germ that kills the hair, and only by keeping after it with FAMO can you save your hair and make it grow.

FAMO does unquestionably kill the seborrhea germ—clears the head of this pest; more often than not in a single application.

FAMO does grow new hair, even when people are careless and only apply it infrequently.

But it is not fair to yourself, your hair, or FAMO, to run chances.

And you are running chances, if you use FAMO only once a week, or every now and then.

FAMO is sold at all toilet goods counters, in two sizes—\$1 and 35 cents.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean excretion forms in scales or flakes and is commonly known as dandruff.

From the laboratories of F. A. Thompson & Company, Manufacturing Pharmacists, Detroit, Mich.

Don't burn good fuel in a poor stove

Its a useless waste of good fuel and a needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment, if your food does you no good, if food distresses rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPISINCO.

### THE LABOR STRIKE.

There is a good deal of misconception about the meaning of the words "open shop" in the labor movement. Many persons have been regarding it as a term which implies that no union men will be employed. That is not so, for thousands of union men are at work in the steel mills, and further, because they are paid wages in excess of the union scale, have been satisfied, and did not want this strike, but because of their affiliation with the union, many of them felt it their duty to join with the others and quit work.

This condition has been stimulated by the radical portion of the unions, men who make it their business to foment discontent—the "walking delegates" who live off the unions—men like Wm. Z. Foster, who has been shown to be a former I. W. W. promoter. Their stock in trade is to preach discontent against capital and to impress the employees with hatred of the employer as the bloated blood-sucker ever ready to oppress the workman. Of course it is the ignorant foreigner with whom they have their easiest work, because of his lack of knowledge of true Americanism.

What the country most needs is more strict laws against revolutionary movements to overthrow the government, and schools to teach foreigners English and Americanism. It is not to be wondered at that men who do not understand a word of our language, and maintain their former nationality associates as a class, are easily duped into the belief that they are being oppressed here as they were by their rulers before coming here. They are babes in Americanism. They need New World Kindergarten schools to teach them the alphabet of Americanism. It would be money in the pocket of the country to provide such.

It seems a shame that the very thing that is the pivotal drawing card of our country to all others—that America is the mecca for the oppressed of the earth—should be taken advantage of by designing demagogues to try to undermine the government of this blessed land.

The nation is distressed at the news of President Wilson's illness. God grant that it may be only temporary, for all are looking with hope to the proposed Capital and Labor Convention which he has called for October 6th, and are hopeful, with his advice and the co-operation of so many leading citizens, that some common sense and just remedy may be found for the unrest that now exists over this nightmare of dissension.

### STRAIGHT THINKING.

A recent magazine sketch of a man who has multiplied the size of his business fifteen times since it was turned over to him by his father thirty years ago, lays especial stress upon his quality of "straight thinking." He possesses, it seems, a mind that is impatient of frills and side issues. Men who call upon him with the idea of leading up to a subject in the course of half an hour of rambling talk are disconcerted by his way but not altogether without it.

of stripping off the conversational husks and exposing the real topic of the discussion. When a matter is under consideration he insists upon talking about that matter and not about a quantity of other things. He is not particularly quick in his decisions; even when he has decided, he is willing to revise and amend upon due occasion; and he is not afraid to admit he was wrong and to start all over. But when he thinks and when he talks he digs straight into the heart of what he is thinking or talking about—and it is no wonder he is successful.

Most persons waste a great amount of their time and the time of others in loose and rambling dissertation. In politics, as in war, there may be art in dissimulation; sometimes in business it is good strategy to draw the other fellow out—if he doesn't know you are doing it. But in their normal relations of people with one another there is usually no reason why the immaterial, the casual and the conjectural should not be omitted—unless, of course, mere talk for talk's sake is the business of the moment.

### THE CALF PATH

One day through the primeval wood  
A calf walked home as good calves should,  
But made a trail all bent askew,  
A crooked trail as all calves do.

Since then two hundred years have fled,  
And I infer, the calf is dead,  
But still he left behind his trail,  
And thereby hangs a moral tale.

The trail was taken up next day  
By a lone dog who passed that way;  
And then a wise old bell-wether sheep  
Pursued the trail o'er vale and steep,  
And drew the flock behind him, too,  
As good bell-wethers always do.

And from that day o'er hill and glade,  
Through those old woods a path was made;  
And many men wound in and out,  
And dodged and turned and bent about,  
And uttered words of righteous wrath  
Because 'twas such a crooked path.

But still they followed—do not laugh—  
The first migrations of the calf,  
And through this winding woodway stalked,  
Because he wobbled when he walked.

This forest path became a lane,  
That bent and turned and turned again;  
This crooked lane became a road,  
Where many a poor horse with his load

Toiled on beneath the burning sun,  
And traveled some three miles in one,  
And thus a century and a half  
They trod the footsteps of that calf.

The years passed on in witness fleet,  
The road became a village street;  
And this before men were aware,  
A city's crowded thoroughfare;  
And soon the central street was this  
Of a renowned metropolis.  
And men two centuries and a half  
Trod in the footsteps of that calf.

Each day a hundred thousand rout  
Followed the zig zag calf about;  
And o'er the crooked journey went  
The traffic of a continent.  
A hundred thousand men were led  
By one calf three centuries dead.  
They followed still his crooked way.  
And lost one hundred years a day—  
For such a reverence is lent  
To well established precedent.

A MORAL lesson this might teach,  
Were I ordained and called to preach;  
For men were prone to go it blind  
Along the calf paths of the mind,  
And work away from sun to sun  
To do what other men have done.

### CHARMING AFFAIR AT MCGERVEY HOME

Mrs. W. H. McGervey was hostess Friday evening at a very charming affair, when she entertained members of the choir of Trinity church for the pleasure of Miss Glenna Barrows, who will soon go to Florida to live. Miss Barrows has been one of Trinity's soloists and most interested and faithful choir members for several years and a company of 45 gathered to say good by to her. The company included two of the former organists at Trinity, Mrs. Laura Alexander, and Miss Alma Babb, as well as the present organist, Miss Stella Bishop, The Rev. and Mrs. V. F. Brown were also among the guests.

Guessing the identity of the baby photographs of the guests, was a feature of the evening which caused much merriment. There were also other contests, and a musical program. An ice course was served.

**Good Advice to Women.**  
Do not be afraid to rest your feet. Sit down at your work whenever you can; a chair in the kitchen is a great foot conservator. On may walk all day long upon two feet without injury, but cannot stand perfectly still, as when paring the dinner vegetables, ironing the small pieces, etc., for a quarter of an hour without a crippling degree of fatigue and a risk of serious injury to the feet.—Chicago Daily News.

## XENIA MAROONS DOWN PIRATES IN FIRST GAME

Slashing off-tackle bucks, brilliant forward passes and an impregnable defensive game, helped the Xenia Maroons to start the initial game of the season with a win Sunday afternoon, defeating the Springfield Pirates at Reserve Park, 62-0.

The brilliant generalship of "Yank" Stevens, former High School star, and the terrific line charges of Buck, Walker, Wilson and W. Lealey, rendered the opposition helpless, and after Buck had crossed the goal line in the first few minutes of the play, the Maroons scored at will.

The game was featured by the terrific line plunges of Buck, Walker and Lealey, the brilliant passing and dodging of Stevens, and a sixty yard run by Derrick, who toted a long pass to the ten yard line before he was dragged down. The ball was in the possession of the locals most of the game and the visitors could not even make their downs. They were never dangerous.

After Springfield had recovered a fumble on their own 5 yard line, Stevens intercepted a forward pass and it was Xenia's ball on the 11 yard line. Buck toted the leather the remaining distance to the goal. Buck missed goal. A few minutes later after Stevens and Lealey had carried the ball to the 11 yard line, Buck again crossed the whitesail, on a 11 yard buck. Buck again missed goal.

After Springfield had punted following the next kick-off, Derrick carried the oval for fifteen yards around end, and a moment later Stevens crossed the goal line. Buck again missed goal. The quarter ended with the score 18-0. Stevens was on the receiving end of a pass that netted 30 yards, and line charges by Buck, Stevens and Walker carried the pigskin to within striking distance of the goal again where W. Lealey scored and Hoag kicked goal, making the score 25-0.

Stevens, Hoag, Walker and Buck took turns carrying the pellet the next trip, Walker scoring. Hoag missed goal. Stevens intercepted a pass on Xenia's own yard line after Springfield had recovered a fumble and a moment later Derrick was on the receiving end of a long pass that netted 60 yards. Wilson scored on a 20 yard pass. Derrick missed goal. Following the next kick-off Stevens carried a pass sixty yards, and was forced off-side or would have scored. Derrick scored this time on a short pass into the end zone and Fuller kicked goal.

In the fourth quarter, M. Lealey, stepping into a Springfield forward pass raced across the goal line from the 40 yard line for a touchdown. Hoag missed goal. After Buck had made 40 yards off tackle Stevens tore off fifteen yards for another score. M. Lealey missed goal. The count was run up to 62 with only a few seconds left to play when Walker, M. Lealey and W. Lealey toted the leather to within a few yards of the goal, from where Captain Wilson scored. Wilson missed goal, the count standing at 62-0.

One of the largest crowds to attend independent football here was out for the fracas. Next Sunday the Maroons play the Beavers of Dayton.

The lineup:  
Xenia ..... Springfield  
Hoag ..... Le Hammerle (Cap)  
M. Lealey ..... Loudmilk  
Lewis, Fudge ..... Shaffer, Kennedy  
Ratchford ..... Brown  
Free, Milburn ..... Schutte  
Fuller, Walker ..... Williams  
Derrick, Fuller ..... Laub  
Stevens ..... Gallagher  
Buck ..... Dobbins  
W. Lealey ..... Hallam, Murphy  
Walker, Wilson (Cap) ..... Taylor  
Touchdowns: Buck 2, Wilson 2, Stevens 2, Walker, M. Lealey, W. Lealey, Derrick. Kicked goals: Hoag, Fuller.  
Referee: George Baldwin; Umpire, Dunn; Head Lineman, Kneisley; Timer: Bales. Time 12-12, 12-12, 10, 10.

## A CHEERFUL HOME-COMING

Home means comfort and good cheer when there is a CALORIC FURNACE in the basement.

Your slippers, pipe, favorite reading and the CALORIC are a combination that make you forget the howling wind and drifting snow. And how the wife and children appreciate such a home—warm and comfortable in every room.

More than 50,000 satisfied users testify to the splendid success they have had with the

This is the furnace which has revolutionized heating. Instead of using numerous pipes and registers, it heats the entire house through only one register. It is therefore easily installed in new or old houses, usually in one day, without interfering with your present heating arrangements.

The CALORIC heats all types of homes up to eighteen rooms, also churches, stores, factories, halls and other buildings. It burns coal, coke, wood, gas or kerosene, and because of special patented features, saves from 1/3 to 1/2 your fuel. The CALORIC is sold under the Monitor Iron-clad Guarantee, which insures the purchaser thorough and economical heat.

Call on us, or write for the new CALORIC catalog.

# SAYS NERV-WORTH HAS BEEN A BOON TO HER HUSBAND

MRS. J. H. GENTNER, OF ALPHA, GLOWINGLY PRAISES THIS FAMOUS FAMILY TONIC.

Mr. Gentner is the well known Alpha carpenter. His many friends will read of the recovery of his health with pleasure and interest. Said Mrs. Gentner not long ago:

Sayre & Hemphill—My husband was restless and nervous. Couldn't sleep at night and felt worse on getting up than when he went to bed. His stomach was out of order and he had no appetite. He has taken one bottle of Nerv-Worth and feels great improvement. Stomach no longer bothers him. Sleeps fine; and he feels refreshed on getting up. Nerv-Worth surely has been a boon to him. We recommend it most highly.

MRS. J. H. GENTNER, Alpha, Ohio.

Nerv-Worth steadies and strengthens the nerves, whets the appetite, adds flesh, aids digestion, rouses the liver, regulates the bowels, restores restful sleep, banishes sick and nervous headache and other aches and pains, builds up run-down systems. Your money back at Sayre & Hemphill's, Xenia, if Nerv-Worth does not benefit you. W. F. Harper sells Nerv-Worth at Jamestown.

## MANY XENIA PEOPLE TAKE TRIPS ABOVE CITY

Thirty-five people accepted the opportunity to go joy-riding in the clouds Saturday afternoon and Sunday when they flocked to the Shoup field on Dayton Hill and crowded each other to ride with Wallace Pearson, Troy airman, who flew from the field both days.

The birdman did not attempt air "stunts" with many of his passengers, but confined their initial trip to pleasure jaunt over the clouds above

Xenia, giving them an opportunity to get a birdseye view of the city. With only one passenger, Miss Mary Coates, did the aviator attempt any "stunts" in the two days flying and on the request of his passenger he treated her to some lively air feats.

Those who made the trips up during the two days were: Miss Pauline Shoup, L. E. Johnson, Paul E. Glass, B. S. Chance, W. R. Bone, E. H. Heathman Fred Norckauer, Dr. A. D. DeHaven, Jack Eavey, Fred Haines, Harley Swone, Harry Lott, Crampton Lott, Russell Peterson, R. J. Reinhardt, Dr. N. T. Pavey, C. L. Bayliff, H. L. Hilliard, Henry Flynn, J. P. Rocklett, Frank Hutchison, Miss Mary Coates, Michael Foody, Miss Helen Wike, Thomas Ralls, J. W. Huston, G. Devine, E. Linkhart, Mrs. Amos Faulkner, Roscoe Coy, Paul Hill, Chester Mallow, Lawrence Moore, Delvin Hilton and George Shoup.

Lieutenant Don Campbell, flyer, who was supposed to have been here a week ago Saturday, but who remained in Washington, C. H., until Tuesday and then landed at Wright Field after an unsuccessful attempt to fly to Bellefontaine, alighted at the Shoup field Sunday evening.

Lieutenant Campbell was passing over when he saw the other plane, alighting so he landed here and tied his machine up for the night. As Aviator Pearson left Monday for Chillicothe where he will fly for two days, and from there he will go to Union City, Ind., where he will fly for four days.

## MORE EFFICIENCY OF WAR DEPARTMENT

Milford, Mass., Sept. 29.—Ernest H. Johnson, a Milford war veteran, is having a difficult time persuading the War Department that he is, in fact, not dead, as the department's records show. Despite the fact that he has sent several letters, endorsed by town officials, to show that he is alive, the department has not corrected its mistake.

The latest development in the situation is a letter from the War Department directing Johnson's wife to return all allotment money she received after November 4, 1918, when according to the department her husband died. Tiring of the controversy as to his vital status Johnson had his wife write back that she would return the department money as soon as the department sent her the \$10,000 war risk insurance he took out when he entered the service.

Who'd a Thought It? Reform is the work of reason slowly awakening from the lethargy of ignorance, gradually acquiring confidence in her own strength, and ultimately triumphing over the dominion of prejudice and custom.

## INDIAN WAR VETS OPEN CONFERENCE

Wichita, Kan., Sept. 29.—Veterans of the Indian wars are here for a two-day conference of the famous Indian Fighters of America, which is meeting in connection with the Kansas department of the American Legion at the International Wheat Show of Wichita.

Many of those who followed Sheridan, Cook, Terry, Custer, Forsythe, Miles and others in the many raids and wars after the Civil War, are still alive and will attend.

## I. O. O. F. TO HOLD BIG TRI-COUNTY MEET IN DAYTON

An important tri-county meeting of the I. O. O. F. with Montgomery, Preble and Greene counties taking part will be held in Dayton October 21, and is expected to bring together a large representation of the 26 lodges in those counties.

E. W. Titt, of Stockdale, grand chancellor of the Grand Lodge of Ohio will be present as an official guest, and will give an address, as will other prominent men who are expected to attend. The knight rank will be conferred upon class of candidates during the meeting, the work being conducted by the degree team of Iola Lodge, Dayton.

Really Amount to Nothing. I don't like these cold, precise, perfect people, who, in order not to speak wrong, never speak at all, and in order not to do wrong, never do anything.—Beecher.

## LONG CONTROVERSY HAS BEEN SETTLED

A lengthy controversy between the Greene county commissioners and the directors of The Miami Conservancy District over the repairs of certain roads in the conservancy basin in Bath township, in the vicinity of Wright field, which were damaged by the government, has been settled.

The commissioners have agreed to improve the road from the community house to the new road built by the Conservancy Directors. The Conservancy will furnish the gravel, which is to be taken from the pit on the Huffman farm. When the road is completed the Conservancy will pay \$5,000 to the commissioners, which sum the commissioners believe will cover the cost of the improvement of the mile of road. The commissioners, upon the payment of the \$5,000 will waive their claim for \$6,100 damages. The court costs will be paid by the conservancy.

The Conservancy agrees to complete relocation of roads and bridges along the Valley pike, on the northwesterly side of the proposed reservoir. The Conservancy will not be required to replace the former Springfield pike from Huffman Hill as relocated, through Wright Field to Fairfield, as the same is abandoned by the government.

## Big Lot of Hay Fever Jokes

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are kidding themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcline and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and snuff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcline say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

## 7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keep mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.
